Company Overview

Global Voices LLC empowers government and defense organizations to operate effectively in today's complex, multilingual environment. With over 30 years of combined expertise in language, analytics, and innovative training methodologies, we design tailored solutions aligned with your mission requirements. As a small, veteran, and woman owned business, we're agile, efficient, and driven to equip your teams with the language, culture, and technology tools to thrive wherever the mission leads.

Core Competencies

- **Language & Cultural Training**
 - Instructor-led, bespoke, and AI-enhanced training events based on mission requirements. We curate tailored learning pathways that combine live instruction, tutoring, and adaptive technology to deliver proficiency growth, cultural fluency, and long-term return on training investment.
- **Language Role Play & Scenario Training**
 - Live or virtual simulations that mirror real-world interactions such as key leader engagements, media exchanges, and persuasive communication to strengthen preparedness and operational confidence. Using scripted or semi-scripted, or spontaneous scenarios, trained subject-matter experts deliver actionable feedback that pinpoints strengths, gaps, and next-step training protocols.
- **Program Management & Coordination**
 - End-to-end program administration grounded in a deep understanding of defense policy, doctrine, and CLP requirements. We provide a single, accountable point of contact, offer audits, can stand up new programs or augment with CLPM support. Let us manage the administritivia so your teams can stay focused on mission-critical work.
- **Acquisition & Vendor Integration**
 - Simplified procurement through a single, flexible contract that streamlines multiple language efforts under one coordinated framework. We draft contracting documents, compete requirements, and award task orders to the most qualified of universities, training centers, and niche providers driving competitive pricing and enabling collaborative, custom-built training solutions as missions evolve.
- **Emerging & Custom Solutions**
 - Strategic program advisory to design or support language programs and policies, with a focus on underserved languages and advanced training models beyond traditional classroom paths. We can co-create tech-enabled pilots, elevate current immersion training, re-imagine retraining initiatives and leverage gaming and learner interest to align with emerging requirements, unique mission sets, contingency operations, etc...

What Sets Us Apart

- **Advisory that fills a critical gap**
 - We offer dedicated language training and program consulting that does not exist, filling a gap between traditional instruction, policy, and mission-focused innovation.
- **Faster readiness:**
 - Technology-enabled training and role play built around real tasking and operational requirements, closing specific language and cultural gaps on tight timelines.
- **Reliable execution:**
 - Veteran-led program management brings integrity, policy, doctrine fluency, and transparent documentation to every phase of delivery, ensuring programs stand up to scrutiny and align with organizational standards.
- **Flexible, scalable delivery**
 - Our vetted network of instructors, tech experts and SMEs lets you quickly flex to new regions, missions, and priorities with curated experiences that are engaging and that align with standards.
